

REGULAR MONTHLY MEETING JULY 12TH 2022

The regular monthly meeting of the Mayfield Town Board was held June 14th, 2022 at the Mayfield Municipal Complex, 28 N. School St. Mayfield NY 12117 at 6:30 PM. The Meeting was opened by Supervisor Richard Argotsinger with the Pledge of Allegiance.

PRESENT: Supervisor Richard Argotsinger

Councilman Ralph Desiderio

Councilman Jack Putman

Councilman Thomas Ruliffson

ABSENT: Councilwoman Melissa Mazzarelli

ALSO PRESENT: Town Attorney Carmel Greco, CEO/BI Damon Curley, Highway Superintendent Jeff Martin, Kathy Baker, Scott Henze, Travis Mitchell, Dan Sardelli, Mike Angus, Todd Montanye, Bob Murphy, Bobbi Ricciardi, Michelle Kaplan, Amanda Mormile.

PUBLIC COMMENT: Bobbi Ricciardi stated there are trees in the right of way on Gray Rd. that should be taken down. Bob Murphy stated that his driveway on Vandenburg Point Rd flooded again during a storm and questioned the survey.

DEPARTMENT REPORTS:

CEO/BI Damon Curley submitted his report stating that 10 permits were issued in June, and the planning board will meet Wednesday, July 20, with a review of John Papas proposed 4 unit RV park on Lakeside Dr. At the last Zoning board of Appeals meeting, a public hearing was held for an application for a use variance on Kunkel Point rd. by Doc's Marina. The board will reconvene Wednesday July 27 to continue their review.

HIGHWAY SUPERINTENDENT Jeff Martin submitted his report stating all 9 cemeteries have been mowed including Warner Hill. All town roads have been mowed once and are starting the second time. Ditches are being cleaned and trees are being cut back. Paving is starting next week. Still waiting for the pipe for Gray Rd. Stumps and trees will be placed on the Sand Hill Rd property along with stumps from the rail trail.

SUPERVISOR Richard Argotsinger gave his report stating the Association of Towns is offering a training course for planning and zoning and short term rentals. Department of Health inspected the beach and the beach passes all tests. More trees need to be removed from the beach area.

Short Environmental Assessment Form
Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing: a. public / private water supplies?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input checked="" type="checkbox"/>	<input type="checkbox"/>

***Short Environmental
Assessment Form Part 3
Determination of
Significance***

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short- term, long-term and cumulative impacts.

The Fulton County Board of Supervisors established Fulton County Sewer District No. 2: Vail Mills serving approximately 474 acres of land and 103 tax parcels in 2017/2018 and installed 5,000+/- linear feet of sewer line along with a Sewer Pump Station and associated infrastructure and identified within the Issuance of a Determination of Significance at that time, that the initial project would not have a significant adverse environmental impact since:

1. The intent of the action is to provide municipal sewer infrastructure to a relatively compact geographical area in and around one of the busiest intersections (NYS Routes 29 and 30) in Fulton County in order to encourage Smart Growth type development and prevent a sprawling development pattern.
2. The area to be served by the municipal sewer infrastructure is identified in the Town of Mayfield Comprehensive Plan as an area for high-density mixed use type growth with pedestrian-friendly amenities.
3. While the effectiveness and the magnitude of development that has been planned for the Vail Mills Development Area cannot be determined at the present time and will eventually be a function of the local economy, the Conceptual Development Plan that was prepared for the properties in the Development District was formulated with the intent of avoiding any potential impacts to natural features, including wetlands, groundwater resources and surface waters.
4. The Vail Mills Sewer Collection System Project, which includes the creation of a Sewer District in the Town of Mayfield, will focus development efforts in a concentrated area that will preserve, while at the same time taking advantage of aesthetic resources.
5. The Conceptual Plan for the Vail Mills Development Area includes the expansion of recreational opportunities for pedestrian and bicycle accommodations, as well as the development of water access points along the Kennyetto Creek.
6. The intersection of NYS Route 29 and 30 will not see any reduction in level of service as a result of future development that occurs within the project area.

The Town of Mayfield Town Board agrees with the Determination of Significance for this proposed extension.
